

## Notes to Referee

Dear Referee

Thank you for agreeing to write a reference in support of this application.

The FISITA Student Travel Bursary is a cash award to help outstanding students/young engineers travel abroad for industrial or research placements within the automotive industry.

Please ensure you read a copy of the application and FISITA's terms and conditions before completing the referee's comments form.

The reference that you provide should address the following issues with at least one sentence:

- viability
- planning
- technical content
- educational value
- alignment with FISITA's aims
- satisfactory additional support

Your reference is very important and will count towards the final decision as to whether to grant an award, so if you anticipate any problems with providing this reference, please let me know as soon as possible.

I look forward to hearing from you soon.

Kind regards

Emer Padden  
Education Officer
